

Easy Clean Tempered Glass, Wired & Wireless Clinical / Medical Touchpad Keyboard

Order Code: KYB-ACCU-GLASSUK

Accuratus AccuMed Glass- All in One USB wired, RF2.4 GHz & Bluetooth® Wireless
Easy Clean Tempered Glass Clinical / Medical Touchpad Keyboard

About

The AccuMed Glass keyboard is a revolutionary new design from Accuratus with 3 inbuilt connection options – Bluetooth®, RF or USB – simply select the button of your choice and toggle between your devices. The USB cable included even recharges the keyboard – saving downtime and any inconvenience. This tempered flat glass keyboard also has a selectable tactile and audio feedback controller, allowing the user to achieve their most comfortable typing experience along with a gesture controller in the number pad for full mouse control.

An easy and fast wipe clean surface prevents germs or contaminates from hiding on the keyboard, making this a safe option for any medical or clinical application.

Specifications

- All in one multi device connection USB wired / Wireless RF 2.4GHz and Bluetooth®, you can switch between them with the click of a button.
- Plug and Play, using standard Windows® / Mac® USB drivers
- Wireless RF 2.4GHz via supplied USB receiver, offering upto 15M wireless freedom
- USB wired connection using the supplied cable, the supplied USB cable also charges the internal battery
- Wireless Bluetooth® connectivity to connect to devices with Bluetooth® capability, e.g. Microsoft® Windows®, Apple® Mac OSx®, Android® and Linux®. Not designed to be used with iOS®, iPhone® or iPad®.
- Smooth tempered glass surface which is very easy and fast to clean
- Fully sealed IP67 rated design, the keyboard can be fully submersed if required, very easy to clean and sterilize
- Large integrated touchpad (119 mm x 102 mm) , which also doubles up as a numeric keypad / arrow keys keyboard section
- The integrated touchpad supports multi finger gestures, one, two and three finger control (instructions are included)
- Cleaning lock button, press this button and the keyboard is locked so there is no need to unplug it while it is being cleaned which can take just a matter of seconds.
- Applications include hospitals, doctors surgeries, dental clinics, nurse carts, laboratories, food processing, clean rooms and also home, office and school / university use.
- UK English Windows® layout, and also UK English Apple® Mac® layout all in the one keyboard. Keys which are different in Apple® layout have the apple commands on the right hand side of the key. Other language layouts are available on request meeting MOQ requirements.
- Easy to read 18 mm x 18mm keys which are a good size for typing.
- Keyboard layout is actually printed under the tempered glass top surface which means the key legends can never wear off, offering exceptional durability and product life.
- Adjustable sound and vibration feedback, when typing, the keyboard can offer feedback for a tactile typing experience.
- Contoured and durable white ABS plastic base, ergonomically shaped to fit in your hands or on your lap.
- Flat keys with no moving parts, ensuring there are no areas for dirt and germs to collect whilst offering excellent product lifespan.
- Internal rechargeable lithium battery, for when the keyboard is used as a wireless device, the keyboard also indicates the battery status via the LED colour on the wake button.
- Power on/off button on the rear of the keyboard so that the keyboard can be easily turned off, with additional sleep mode sleep mode to save battery power.
- High quality retail packaging to keep the keyboard safe when in transit.
- User manual, USB wired / charging cable and RF 2.4GHz wireless receiver included
- EAN 13 Barcode No.5060055466584 , Commodity code : 8471 606090
- Designed for Windows®, Mac® OSx® and Android® (not designed for iOS® ~ iPhone® / iPad®, if you have a request for iPhone® / iPad® please let us know)
