

Wireless 2.4GHz RF Mini Keyboard with Touchpad

Order Code: KYBAC540-RFMMBK
Accuratus 540 RF - Wireless 2.4GHz RF (via USB) Multimedia Mini Keyboard with Touchpad

About

The Accuratus 540RF 2.4Ghz has a small footprint and an integrated touch pad for those applications where space is limited, in retail & hospitality, rack server drawers or at home. Our 540 is a big winner with major retail stores, this beautifully constructed keyboard offers all the facilities of a standard keyboard, but with some of the 'fat' removed.

Use it with your media center and realise it works from all corners of the room or simply use it as a solid workhorse in the office. Though smaller than a standard keyboard, the 540 is still very tough using reliable membrane technology. Small, tough & reliable – It's got to be the 540.
