

Ergonomic split typing

R-Go Split Break keyboard

With personal break coach.

With integrated break indicator

The keyboard is equipped with a break indicator, which alerts you with color signals when it's time to take a break.

2 parts for maximum freedom

The R-Go Split keyboard consists of 2 separate parts that you can use in any desired position

Ultra-thin design

The keyboard is ultra-thin reducing muscle tension and stimulating blood circulation.

Patented break indicator
Download the R-Go Break software via www.r-go-break.com

Ultra-thin design: 6 mm
Ultra-thin design to ensure relaxed, flat wrists during typing.

Compact model
Your hands always remain within shoulder width. This natural posture prevents RSI complaints.

Built-in magnet
Turn the Split Break keyboard from split to compact in one movement.

100% Recycled plastic & aluminum
The plastic & aluminum used for this keyboard is 100% recycled.

Connections for Numpad Break (wired only)
USB connections for connecting the R-Go Numpad Break are available on both sides of the keyboard.

Lightweight
Easy to take with you, making it perfect for on the road!

Light keystroke
The special scissor mechanism in the keys provides a light keystroke so you need less strength to type.

Split keyboard
The R-Go Split Break consists of two separate parts for maximum freedom. Prevent RSI-complaints by typing with straight wrists.

Also available in white
Also available in white to prevent eye-strain.

R-Go Break

Your personal break coach

Short breaks during your working day are vital for your health! Micro breaks prevent overloading of small muscles and tendons and improve your concentration. Because breaks are often forgotten when you are focused at work, we've developed a break tool that reminds you to interrupt your work on time.

The patented R-Go Break software uses colour signals to indicate when it's time to take a break. During keyboard usage, the light changes colour, like a traffic light:

 Green: you are working healthily!

 Orange: time for a break

 Red: You've missed a break

This way you will get positive feedback about your break behaviour. Download the **R-Go Break software** (www.r-go-break.com).

R-Go Pouch: sustainable & social!

This protective case is made of soft, sturdy felt made from recycled textiles. Especially for carrying your Split keyboard safely! The pouches are made by i-Did, a Dutch company that makes products from recycled textiles and has social inclusion as its goal.
