UNOTRON®

S6000K
SPILLSEAL® Protected
Washable to IP66/NEMA4X

S6000K
Medical Grade
Washable Antibacterial Keyboard

SpillSeal® protected water and dustproof keyboard to NEMA4X and IP66, meaning you can wash and disinfect the keyboard in Hospital grade cleaning solutions, helping reduce the spread of germs and cross infection.

The keyboard can be used with confidence in many different environments such as Healthcare, Education, Military, Commercial and is rugged and durable and built for harsh environments.

FEATURES

Washable and Waterproof to IP66 & NEMA4X
Sealed Keys lets you wash and fully clean the keyboard.

Hermetic Air-tight Design
Hermetically sealed interior prevents any fluids or matter entering, protecting the electronics and excluding any possible contamination.

Antibacterial Protection
Is incorporated in the plastic providing a powerful broad-spectrum inorganic, silver-based biocide for antibacterial protection.

Easy to Disinfect
Immerse in antibacterial solutions to reduce the spread of germs.

Touch Typing Keystroke
All UNOTRON keyboards have a responsive touch typing experience without the stiffness of traditional rubber keyboards.

Detachable Wrist Support
Ergonomic wrist support adds comfort for extended use and is easily removed when not required.

Easy Installation
Plug and Play for Windows 98/ME/2000/XP/Vista/Windows 7 and Mac with no extra software or complicated set up.

Dishwasher Safe
Quick and easy to clean with dishwasher detergent on all cool wash dishwasher cycles.
